

signedje™

Digital Signage Player

With the signEdge, you get unattended playback of high definition video perfect for digital signage, kiosks and trade shows.

The signEdge is a perfect solution for High Definition Plasma and LCD digital signage or kiosk applications. It's compact size makes it easy to conceal in the optional signSleeve VESA 100 or 200 mm compatible mount. The signEdge features MPEG 2 and AVC/H.264 high definition and standard definition file playback and IP stream decoding. Whatever your source, it automatically scales the content to match your monitors capabilities up to a stunning 1080i high definition display. The media can be loaded, managed and scheduled for playback using the included mediaControl software.

applications

- **Retail:** Impress customers with high definition (HD) retail digital signage and point of purchase advertising on Plasma and LCD monitors.
- **Trade Shows and Museums:** Get the detail you need with native HD playback or upscaled standard definition (SD) for kiosks and interactive displays.
- **Private IP Networks:** Stream live content to the displayMate over IP for point-to-point or multicast playback. Fall back to playback of stored content when live stream is off.

availability

- signEdge HD:** digital signage player with 80GB hard drive storage.
- signEdge HD 0:** digital signage player for IP decode only (no usable storage).
- signEdge HD 4:** digital signage player with 4GB solid state storage (3.0 usable for media).
- signEdge HD 8:** digital signage player with 8GB solid state storage (7.0 usable for media).

benefits

- **Play AVC/H.264 or MPEG-2 HD:** Step up to stunning playback of high definition AVC/H.264 and MPEG-2 media.
- **Automatically Scale SD to HD:** Play both SD and HD content with the same player which automatically sizes video with advanced scalar algorithms to the desired output resolution from 480i up to full HD 1080i.
- **Control Playback:** The signEdge includes a built in command interface and scheduler that can play a list of files and loop indefinitely or be triggered from external control systems from the parallel or serial ports.
- **Tune into IPTV Networks:** Tune in and decode IP Multicast HD content with fall back playback of stored content.
- **Synchronize Playback:** Deploy multiple players on the same network and get synchronized playback of your content.
- **Small Size:** signEdge is a powerful multimedia HD player packed in a small package less than 1.5" thick,

perfect to attach to the back of an LCD monitor with the optional signSleeve VESA mount.

- **Manage Content (Enterprise):** Purchase the optional mediaManage Enterprise Application for monitoring, content distribution and playback verification for your entire digital signage enterprise.
- **Manage Content (one-to-one):** The included mediaControl application lets you manage your media, play lists and schedules on the player while controlling the playback. With the ability to view log files and real-time playback data, day-to-day operations and troubleshooting is streamlined with mediaControl.
