

TelVue Princeton™ B100-IPTV Digital Broadcaster

Broadcast TV - Without the Cost and Complexity

TelVue Princeton's B100-IPTV Digital Broadcaster delivers a completely digital "TV Station-In-A-Box" broadcast system; the hassle-free way to launch a high quality professional looking 24x7 TV channel.

The B100-IPTV Digital Broadcaster is an all-in-one video system that can be ready to broadcast standard or high definition video programming within minutes of un-packing. It's so simple to use a first-time operator can schedule a full day of programs in just a few minutes. A more experienced operator might take advantage of the B100-IPTV's sophisticated programming to originate a channel that rivals professional systems.

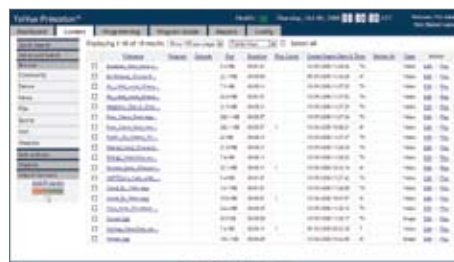

Uploading MPEG-2 Transport stream video files to the B100-IPTV Digital Broadcaster is as simple as drag and drop. Add remote Internet access, and you can control your B100-IPTV with a Web browser from anywhere in the world. The B100-IPTV also automatically publishes a searchable program guide for your website.

The B100-IPTV can be networked with a QAM multiplexer for broadcasting direct to Digital tuner equipped televisions or directly to PCs. With this system you can originate one or more local HD, SD, or HD/SD digital TV channels.
