

SC/APC-SC/APC Patch-cord

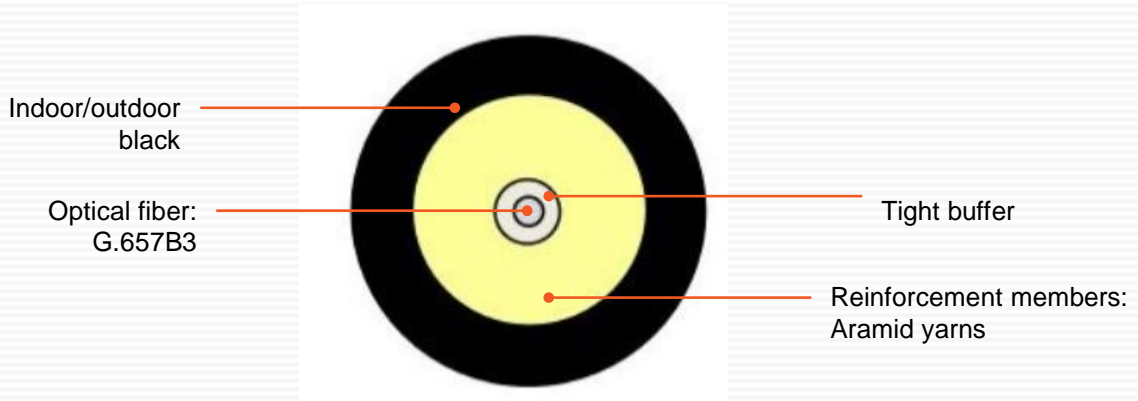

Patch-cord is single fiber cable used in the connection of different equipment. It provides SC connector. Strict manufacturing process ensures the reliable quality of the pre-connectorized connectors. All connectors have good environmental and mechanical performance.

Features

- Simplex APC connectors with good performance
- High density connector, high quality soft cable
- Low insertion loss, high reliability
- Convenient operation, quick installation

Cable structure

Specification

Item	Parameter
Type	SC/APC-SC/APC
Insertion loss	≤0.3dB
Return loss	≥60dB
Cable cores	1
Cable diameter	4.8mm
Cable weight	10.0kg/km
Cable color	black
Flame retardant level	FT-4
Fiber	G.657B3
Cable length	3/5/10/20/50 m
