

Off-Air Broadcast Technology Solutions & Client Services, that will make your day!

The Issue:

The management of Tower & Load Inspections, installation of new antennas and deployment of new technology for Off-Air Broadcast Channel reception can be one of the most time consuming & stressful things you do in your engineering role!

However, it does not need to be. **It should be fun, exciting and stress-free!**

The Solution:

Why not investigate a professional overview of what is available to you from **MHz**?

Let's discuss how we can assist you in your decision to meet & implement your Off-Air Broadcast Channel needs, project requirements and long-term goals?

Technology & Services

Professional Engineering
Tower & Load Inspection

Off-Air Antennas & Pre-Amplifiers
based on Signal Analysis/Survey
(Remote -Theoretical or On-site w 5G/UHF)

Surge-Lightning-Grounding Sys

Direct Broadcast Feeds & Transport

Optical
Managed IP (UDP, RTP)
Un-Managed IP
(RTMP, HLS, Zixi, SRT, RIST)

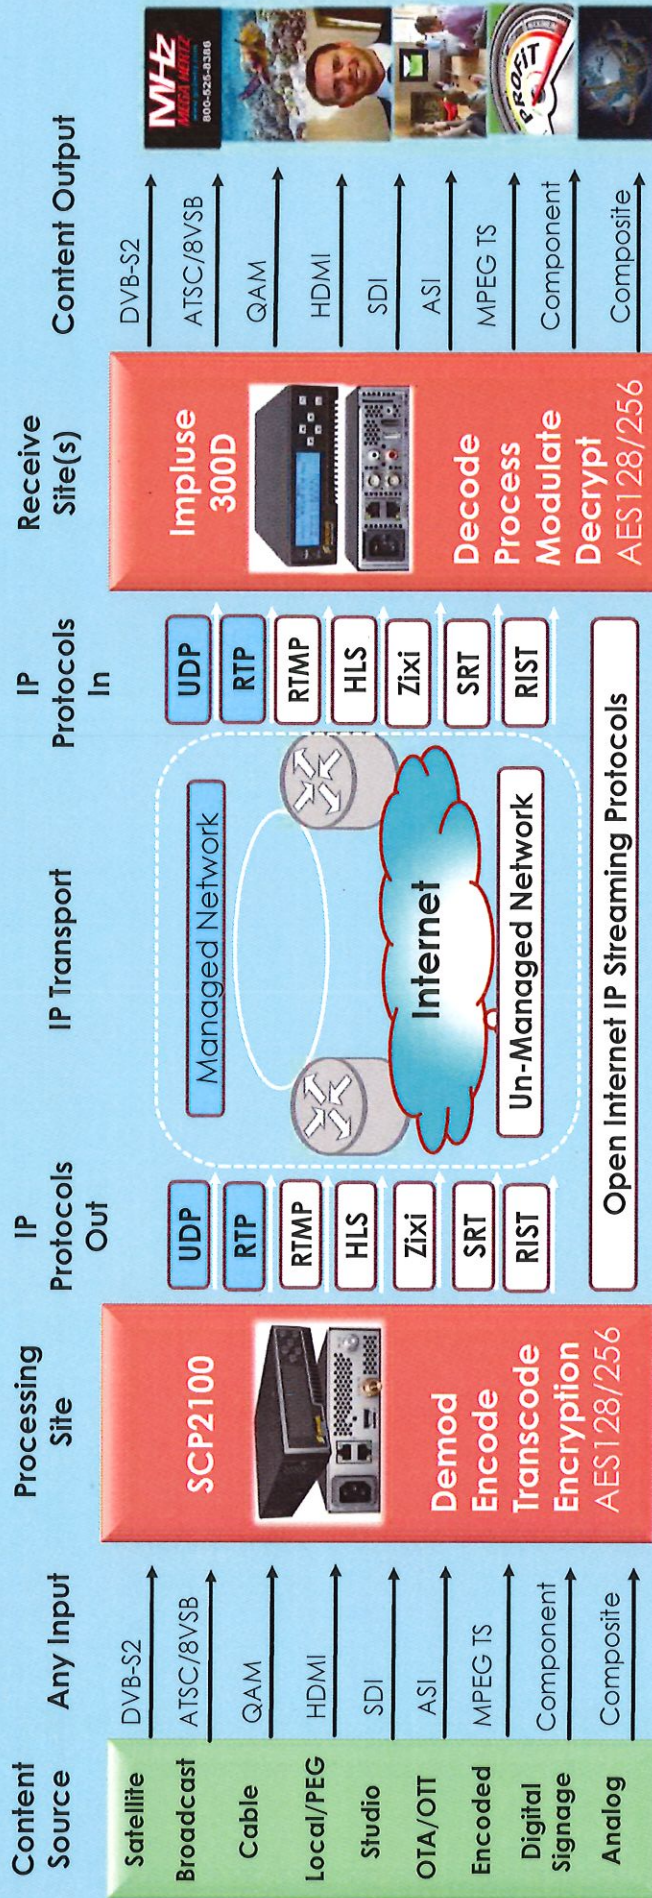

8VSB Rx's
(Multi-Vendor Refresh options)

Client Services - Turnkey Tower services,
Signal Surveys, Installations, Integration,
Activation & Certification, **you can depend on!**

Engineering Resources, Knowledge, Support
& Documentation, **you can turn to!**

Since 1975, with cutting edge technologies
to take you into the future;
Mega Hertz is the partner,
you can count on!

Video Transport over Open Internet

Call us at **800-525-8386** to discuss all your options for Point-to-Point or Point-to-Multi-Point Transport over the Internet
